

HOME MODIFICATION FOR ELDERLY OR DISABLED

The Home Modification Program is sometimes available to Western Egyptian from the Illinois Housing Development Authority (IHDA) it helps low-income seniors and disabled individuals across Illinois afford basic home improvements, and continue to live independently in their own homes.

The program is designed to help disabled individuals and seniors remain independent, live in their own homes, and avoid having to move to nursing homes or other institutions by making necessary accessibility improvements and repairs. For example, installing a ramp, bathroom handrails, or fixing a leaking roof. Accessibility issues are the first priority for this program then other needed repairs will be addressed as funds are available.

There are no funds available for this program at this time.
